EACH ORDER IS ONE MONTH

One list. A sized month. The site stays in shape.

You already have a website. This month it may need a new photo, a wording change, a form, a plugin, or a fix. You choose the package. The package sets how much fits.

01

You send the work

The site link, a way in, and a short list. Text and images for any new page come from you.

02

The window closes

Delivery is 7 days, 5 days, or 3 days. The higher package also comes with a faster reply.

03

The next month is new

Each order is one month. When you want another, place a new order with a new list.

What one page means

One page is an update to a page you already have, or one simple new page built from text and images you send. Another page is a $75 add-on and adds one day.

What every package keeps

Updates stay responsive. Content you supply is uploaded. Social icons stay in place. The site you already have is the site this month cares for.

Site care $150 · Site and app care $400 · Full monthly support $800

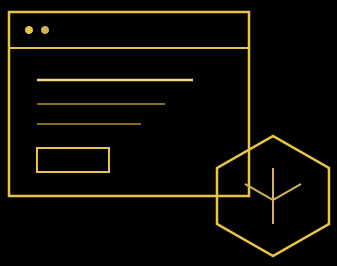

A LIGHT MONTH

SITE CARE

$150

DELIVERED IN 7 DAYS

Faster delivery: 3 days for $75.

For a small, live site that needs a short list handled with care, then a check-in.

INCLUDED

- Updates on up to 3 pages
- 1 plugin, installed and checked
- Content uploads from files you send
- One check-in on the finished work
- Responsive updates and social icons

A MONTH MIGHT LOOK LIKE

- A new homepage photo and updated hours
- A broken button and a stray link put right
- One plugin you have already chosen, installed and checked

BRING THIS

- The page links, the wording, and the images
- The name of the plugin, if one is on the list

THE WINDOW

The 7 days cover this month's list. A page past the three, or a plugin past the one, is an add-on on the last page.

SITE PLUS THE TOOL BEHIND IT

A MONTH MIGHT LOOK LIKE

- Copy and photos refreshed across the pages in the package

- A small bug corrected in a tool your customers already use

BRING THIS

- The list of pages, and the fields the form should collect
- Where the app misbehaves, and what the correct result looks like

THE WINDOW

The 5 days cover this month's list. An app fix here is a small correction to a web app you already run.

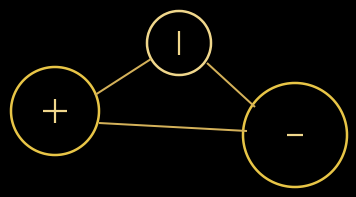

THE FULL MONTH

Full monthly support

A larger piece of work

A new website, a new store, product uploads, and payment setup are their own projects.

A hacked site, or a site that is fully down, starts with a look. That recovery is billed in extra hours at $95.

Begin

01 Pick Site care, Site and app care, or Full monthly support.

02 Send the link, a login or a collaborator invite, and the list.

03 Send the text and images for any new page.

Each order is one month. The next month begins when you say so.
